

# **Quantum Computing and Cryptography - 08: Tensor Analysis**

MICROMODULE

Abhishek Parakh - October 19, 2018

## Outcomes

### Evaluate and Synthesize

Students will be able to implement a program that computes the Tensor product of two matrices.

### Apply and Analyze

Students will be able to calculate tensor products.

### Evaluate and Synthesize

Students will be able to prove properties Tensor products of matrices and vectors.

## Content

### Notes

For solutions for Final Quizzes please contact Dr. Abhishek Parakh at [aparakh@unomaha.edu](mailto:aparakh@unomaha.edu).
